ABOUT ME

I am an Undergraduate at BITS Pilani Goa Campus and am pursuing a major in Computer Science. My research focuses on Natural Language Processing, Speech Processing, Discrete Math, and Graph Theory. I am extensively exploring Natural Language Processing, Adversarial Machine Learning and, Cognitive Neuroscience

EDUCATION

BITS Pilani

2018 - 2022 | BE Computer Science

EXPERIENCE

MULTIMODAL DIGITAL MEDIA ANALYSIS LAB, IIIT DELHI RESEARCH INTERN

- 2020 • Worked on projects in Natural Language Processing under Dr. Rajiv Ratn Shah
- Worked on research projects in the field of Adversarial Machine Learning

MY SMART PRICE WEB TECHNOLOGIES DATA ANALYST - SUMMER INTERN

- 2020 • Worked closely with the monitoring metrics team and scraped data from social media for building knowledge based query engines.

PUBLICATIONS

- 2020 Propaganda Detection in News Articles
SEMEVAL 2020

PROJECTS

FlaiReddit - Full Stack ML Application for classifying posts
Decepticonlp - Adversarial text generation tool

TALKS

IEEE CS RESEARCH DISCUSSION

Invited by IEEE BITS Goa and Hyderabad to discuss about Research in Computer Science

SKILLS

Python, C/C++	<div></div>
Java	<div></div>
Pytorch / Keras	<div></div>
Web Development	<div></div>
APIs	<div></div>
Linux / OSx	<div></div>
